

# DIY Toilet Bombs

deodorize and clean your  
toilet at the same time

## Materials

- 1  $\frac{1}{3}$  cup baking soda
- $\frac{1}{2}$  cup citric acid
- 1 tsp water
- A few drops of essential oils
- Silicone mold or small ice cube tray

In a bowl stir together the baking soda and citric acid. Continue to mix while slowly add 1 tsp of water, slight fizzing is normal, and a few drops of essential oil. Continue to gently mix until it is all damp like wet sand. If it's too crumbly, add a bit more water a tiny bit at a time (to avoid creating a fizzy reaction).

Press into mold and allow to sit out and harden for a few hours. Transfer to a jar or an airtight container.
